

UNSAFE WATER ALERT

The provided water is not for human consumption

DO NOT DRINK THIS WATER

Failure to follow this advisory could result in illness.

The water provided is for household uses, NOT human consumption. The California Department of Public Health and the Tulare County Health Department are advising residents collecting this provided water to NOT DRINK THE WATER.

What should I do?

- **DO NOT DRINK---USE ONLY BOTTLED WATER.** Bottled water should be used for all drinking (including baby formula and juice), brushing teeth, washing dishes, making ice and food preparation. The water provided here is only meant for flushing toilets and bathing. **AVOID CONTACT WITH CUTS, SORES, OR OTHER WOUNDS, AS THIS MAY CAUSE INFECTION.**
- **DO NOT TRY AND TREAT THE WATER YOURSELF.** Boiling, freezing, filtering, adding chlorine or other disinfectants, or letting water stand will not make the water safe.
- Bottled water is commercially available for purchase at local retailers and should be used as described above. Tulare County is working to bring bottled water delivery service to residents who qualify in the near future.
